

Troubleshooting

Known issues that can occur in Duinvilla's

Each room downstairs has a thermostat to set the floor heating

BATHROOM / SHOWER

The bathroom has a showersystem where the drain of water is used to reheat new hot water, this to save energy.

When the system malfunctions, the pump may turn on and off at undesired times.

If this bothers you then you can turn off group number 7 in the meter cupboard, the system will be off.

Please report this to reception the next day so our technical service can fix the malfunction.
