

## HOTTUB MANUAL

Push on the button BUBBLES to get the bubbles working.

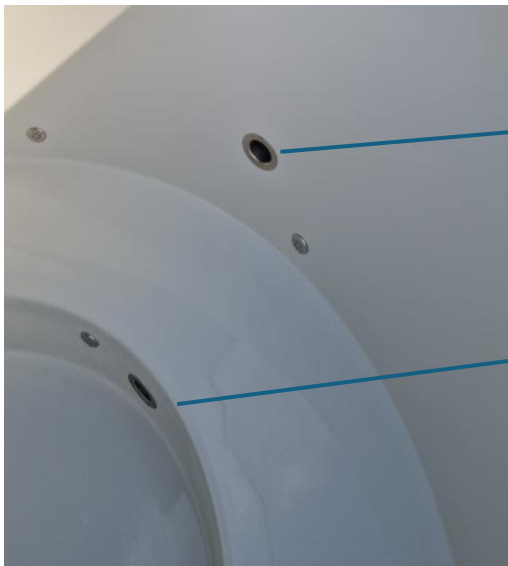

Push on the button LIGHT to get the lights in the jacuzzi

Change temperature - click on the arrows to increase or to lower the temperature.

## RULES

When you go out, please turn the light and bubbles off. Please reduce the temperature under 30 degrees to guarantee a good water quality.

Please do not jump from the borders of the hottub. This is not a swimming pool in which you can play and jump.

Be careful, this pipe releases hot water in the hottub

Be careful, do not sit too close to this underneath pipe, because it drains the water to the filter and can be harmful.

**PLEASE NEVER LEAVE THE KIDS WITHOUT SUPERVISION IN THE HOTTUB**

## MAINTENANCE

Our technical team will check the quality of the water everyday.

It is always good to wait a little so that the product can go into action and clean the water.
