

Environmental zone exemption Camping Vliegenbos and Camping Zeeburg

Camping Vliegenbos and Camping Zeeburg are located within Amsterdam's environmental zone. The purpose of the environmental zone is to improve air quality in the city. The most polluting diesel cars are not permitted to drive in the environmental zone. Whether or not a diesel car is permitted to drive in the environmental zone depends on its emission class.

Passenger cars and vans

If your diesel camper or motorhome is registered as a passenger car or van, it may only enter the environmental zone with **emission class 5** or higher.

Lorries

If your diesel camper or motorhome is registered as a lorry, it may only enter the environmental zone with **emission class 6** or higher.

Check your emission class!

You can find your vehicle's emission class on your registration certificate.

Entry and exit exemption

If your camper or motorhome does not have access to the environmental zone, you can apply for an exemption. This way, you can still reach Camping Vliegenbos or Camping Zeeburg.

The exemption applies only:

- On the day you arrive until 06:00 the following morning.
- On the day you leave until 06:00 the following morning.

In the meantime, you **cannot** drive your vehicle in the environmental zone.
